

*A. A. (Art) Densmore*

A. A. (Art) Densmore is a native of Alberta, graduating from Queen's in 1948, and receiving the M.Sc. degree from McGill in 1953. Following graduation, and prior to 1953, he worked as an operator on a seismic field crew and served as a party chief on an experimental slim hole field crew. From 1953 to 1965, he was employed as a geophysicist for Shell Canada Limited. This was followed by a year teaching at the Southern Alberta Institute of Technology in the mathematics and physics department. In 1966, Mr. Densmore joined Texas Gulf Sulphur Company to administer their geophysical exploration in Western Canada.

He is a member of C.S.E.G., A.P.E.A., E.I.C., and was recently retired from the Supplementary Reserve of the Canadian Army.

*Robert L. Geyer*

Robert L. Geyer received his A.B. degree in geology and seismology in 1938 from the University of California at Berkeley. Most of the following ten years were spent in seismic exploration for SSC and Shell Oil Company. From 1948-1951, Mr. Geyer taught structural and petroleum geology and geophysical exploration at Louisiana State University where he received an M.S. degree in structural geology. He joined Pan American Petroleum Corporation in 1951 and progressed in seismic field research and interpretation until 1965 when he was made supervisor of the field investigation group. In 1967 he returned to SSC as manager of the Personnel Training Department.

Currently, Mr. Geyer is an S.E.G. continuing education lecturer on the VIBROSEIS® system and an A.A.P.G. continuing education lecturer on the elements of geophysical prospecting. He is a member of the S.E.G., A.A.P.G., A.S.T.D., and a number of other professional societies.

®Registered trademark and service mark of Continental Oil Company.

*P. E. Gretener*

P. E. Gretener obtained his Diploma and Ph.D. from the Swiss Federal Institute of Technology in petrology and geophysics. He spent one year as a Post Doctoral Fellow at the University of Toronto. Subsequently he worked for 8 years in oil exploration in western Canada before transferring into Exploration Research. In 1966 he accepted a position at The University of Calgary where he is currently Professor of Geophysics in the Geology Department.

*K. A. Titchkosky*

K. A. Titchkosky graduated from the University of Manitoba with a B.Sc. in Honours Mathematics and Physics. He did post-graduate work at the University of Toronto and in 1965 received his M.A. degree in Mathematics.

From 1965-1968 he was employed at the University of Calgary as an Instructor in the Mathematics Department. During this time he also worked with Pan American as a junior geophysicist and with Geophysical Service Inc. as a Geophysical Engineer. He has given numerous short courses on Digital Seismic Processing and is the author of the book "Seismic Deconvolution".

He is presently employed with Banff Oil Ltd. as a Research Geophysicist engaged in computer applications for geophysical data processing.

Mr. Titchkosky is a member of the CSEG, EAEG and the SEG.
